

Product Name: Bath Buddy Thermometer
Materials: Cover - Food-Grade Silicone
 Thermometer - ABS
 *Includes two replaceable button batteries

Dimensions: Jet - 107 x 99 x 41mm
 Flower - 73 x 68 x 32mm
 Starfish - 92 x 93 x 31mm

Shapes: Jet / Flower / Starfish

Button Battery Required: 2 x LR44

Nominal Voltage: 1.5V

Product Description:

Get accurate temperature readings in seconds with the Haakaa Bath Buddy Thermometer! This handy thermometer measures room or bath water temperature to help you keep your baby's environment comfortable and cosy. The clear digital display and intuitive colour-coded indicator show blue for cold, green for ideal, and red for hot, letting parents instantly judge whether the water is at the right temperature. Designed with convenience and safety in mind, it auto-activates in water and shuts off when removed to save power. Simply press the "C/F" button to toggle between Celsius and Fahrenheit. You can even set your preferred highest temperature so the red warning will display when the water is too hot! The soft, adorable silicone cover is gentle on delicate skin, while the floating design keeps it easy to spot during bathtime.

Cleaning and Care:

After taking thermometer out of the bath, wipe dry with a soft, clean cloth or shake off excess water and let air dry. Clean silicone cover regularly. To wash cover, remove from the thermometer and hand wash in warm, soapy water then rinse and dry thoroughly. To sterilise silicone cover, use a steam steriliser or boil in water for 2-3 minutes. The thermometer is **NOT** suitable for any methods of sterilisation, including steam or boiling water - ALWAYS remove before sterilising cover. Store in a cool, dry place and avoid direct sunlight.

Battery Use:

- Keep new and used batteries away from children and pets. This product CONTAINS button cell batteries. Swallowing may cause serious injury or death within 2 hours.
- This design complies with Reese's Law (Public Law No: 117-171, 2022) and the U.S. Consumer Product Safety Commission (CPSC) requirements for consumer products containing replaceable button cell batteries.
- Always follow the battery manufacturer's instructions on the safety, usage and disposal of batteries.
- ONLY** use the same type of non-rechargeable LR44 button batteries with consistent voltage (1.5 V). Do not mix old and new batteries or different brands/types/voltages, and ensure correct polarity (with the "+" side facing up).
- Non-rechargeable batteries are not to be recharged.
- Do not short-circuit battery terminals.
- Do not force discharge, recharge, disassemble, heat above (manufacturer's specified temperature rating) or incinerate. Doing so may result in injury due to venting, leakage or explosion causing chemical burns.
- Even used batteries may cause severe injury or death.
- Call a local poison control center for treatment information.
- Batteries should always be installed and replaced by an adult.
- Always completely secure the battery compartment. If the compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.
- Remove and immediately recycle or dispose of used batteries according to local regulations, and keep them away from children. Do NOT dispose of batteries in household trash or incinerate.
- Remove batteries if the product will not be used for an extended period.
- Check the condition of batteries regularly. Replace if there are any signs of rust or leakage, clean the battery compartment, and avoid skin contact.

Caution:

- ⚠ WARNING:**
- This device should only be operated by adults.
 - This product is not a toy.
 - This product contains small parts that may become a choking hazard. Keep out of the reach of children and pets when not in use.
 - Never leave device unattended in a room where your baby is alone.
 - Do not use this product for anything other than its intended use.
 - Operate only when fully assembled and battery compartment is secure.
 - Stop use immediately if the product shows cracks, deformation or water ingress.
 - Do not expose to extreme temperatures. Do not use or store the product at temperatures below 0°C or above 80°C. Store away from sunlight.
 - Do not drop, shake, or apply strong impact, as this may cause the device to malfunction or become damaged.
 - Always check the water temperature manually before placing the baby in the bath.
 - Do not attempt to modify, disassemble, or repair the product yourself.

⚠ WARNING

- INGESTION HAZARD:** This product contains a button cell or coin battery.
- DEATH** or serious injury can occur if ingested.
- A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**.
- KEEP** new and used batteries **OUT OF REACH OF CHILDREN**.
- Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

Features:

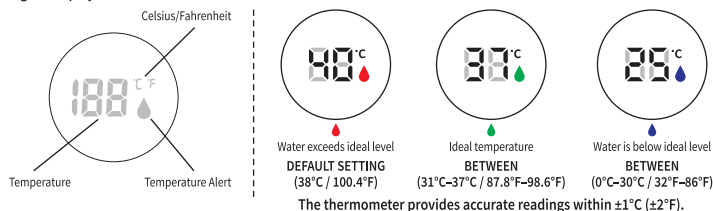

- Versatile 2-in-1 design accurately measures both bath water and room temperature.
- Colour-coded safety indicator clearly shows blue for cold, green for ideal, and red for hot.
- Auto on/off activates instantly in water then powers down 15 seconds after being removed.
- Customisable temperature setting allows you to set your preferred range to suit different needs.
- Dual °C/°F display allows easy one-touch switching between Celsius and Fahrenheit.
- Clear digital screen provides fast, reliable readings in just a few seconds for peace of mind.
- Compact floating design keeps the thermometer visible and easy to retrieve during bathtime.
- Soft, detachable silicone cover is waterproof, drop-resistant, and gentle on baby's skin.
- Cute cover shape adds a playful touch to baby's bath – and it's safe in sterilisers & boiling water.
- Long-lasting battery performance supports worry-free daily use.

Back Panel Display

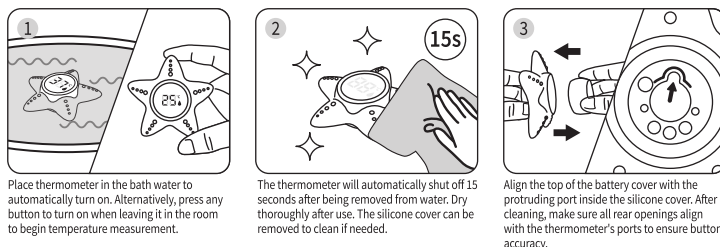

NOTE: To set your preferred maximum temperature (37°C–40°C / 98.6°F–104°F), press and hold the 'S' button until the display flashes, then cycle through by short pressing the '+' button.

Digital Display

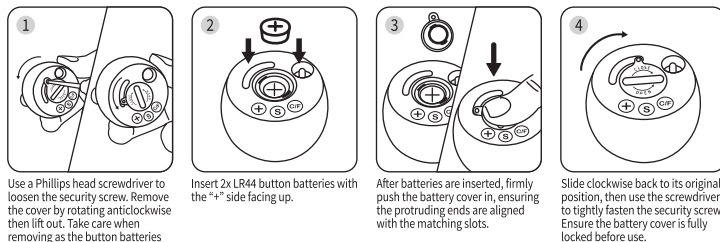

Instructions:

Please note: The display will show '188' if the temperature falls outside the 0–80°C range. Do not use or store the product at temperatures below 0°C or above 80°C.

Battery Changing Instructions:

NOTE: Check thermometer is still operating normally after changing batteries. If it is not working, confirm batteries have been correctly installed. Replace batteries if the display remains off. Remove batteries if not in use for an extended period.

Contains small parts - keep away from children and pets at all times. If the screw has been lost or misplaced, replace with 2 x 3.5 mm Phillips screw.
