Tube Cleaning Brush - Nylon, Stainless Steel

Dimensions: Teether - 71 x 55 x 46mm
Tube Cleaning Brush - 8 x 8 x 99mm

Colours: Desert Rose / Pebble

Recommended Age: 3 months+

Product Description:

Haakaa's 2-in-1 Twisty Tilly Silicone Sheep Teether gently soothes sore gums while adding a playful twist for babies to explore! With an adorable, rounded sheep shape and designed in calming colours, this teether features a textured head and chewable ridges with varied textures and massage points to help ease teething discomfort. Made from ultra-soft, flexible 100% food-grade silicone, it is gentle on little mouths, with no loose parts for added peace of mind.

Even better, our teether doubles as a twist toy to encourage active hand play and coordination! Your little one can twist the tail loop to set the sheep head in motion, rotate the body rings to explore grip and movement, or grab and chew from different angles. Four feet allow the teether to stand upright on flat surfaces, while the tail loop can be attached to a strap or clip for on-the-go use. Easy to clean thanks to the included brush, this durable teether is safe for dishwashers, sterilisers, and boiling water.

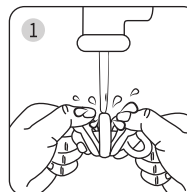

Features:

- 2-in-1 teether & twist toy provides teething relief and sensory play through teething and beyond.
- Made of 100% ultra-soft and flexible food-grade silicone that is safe for little mouths.
- Adorable sheep shape in calming colours is rounded to protect delicate skin.
- Textured sheep head and feet gently massage sore gums and ease teething discomfort.
- Rotating tail and body rings allow baby to explore, grab, bite and twist for sensory stimulation.
- Easy-grip tail and rotating rings encourage hand-eye coordination and fine motor skills.
- Stands upright with four feet for hygienic use & storage.
- Fridge & freezer safe for added cooling relief.
- Compact & durable – tail ring can be attached to a strap or clip for on the go use.
- Cleaning brush included for a thorough clean – safe in dishwashers, sterilisers and boiling water.
- BPA, PVC & phthalate-free.

Cleaning and Care:

Wash before and after each use. Although dishwasher safe, we recommend hand washing this product in warm, soapy water then rinsing and drying thoroughly. Use the included cleaning brush to clean the inner surfaces. We recommend gently separating the rings (note: they are NOT detachable) and rinsing thoroughly around the inner corners to ensure proper cleaning. Only soft bristle brushes or soft sponges should be used to clean this product as hard scourers may scratch the surface. To sterilise the teether, use a steam steriliser or boil in water for 2-3 minutes. Brush is not suitable for microwaves or sterilisers due to metal and nylon parts. Do not use bleach-based agents to clean this product. Ensure the product is thoroughly dried before storage. Store product in a cool, dry place and avoid direct sunlight.

Instructions:

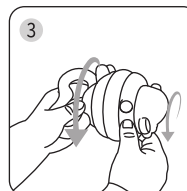

Clean before use.

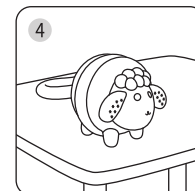

TIP: use the dedicated brush to scrub the small corners for a thorough clean.

Give to your baby to explore and chew on independently.

Twist the tail to set the sheep head in motion or freely rotate the body rings during play.

Use the feet to hygienically stand the teether upright when not in use.

Caution:

- Adult supervision is required at all times.
- Check product condition regularly. Replace if this product shows any signs of damage.
- For your child's safety, never attach this product to long cords, ribbons, laces or loose parts of clothing, as it can become wrapped around their neck.
- Do not store near any sharp objects.
- Do not use this product for anything other than its intended use.
- Keep out of reach of children and pets when not in use. NOT suitable for pets.
- If used with a strap, ONLY use short straps that meet baby safety standards. Ensure the strap does not form loops as this may increase strangulation risks. Secure the strap to a safe location at all times.
- Do not forcefully stretch any parts, including the rotating rings, at any time.
- NEVER allow your baby to put their hands through the tail ring hole for extended periods of time.
- To avoid injury, do not let your baby use this product to hit their body with force.
