TPS056 E10624

Product Name: Rosie Rocking Horse Silicone Teether
Material: Food-Grade Silicone
Dimensions: 110 x 63 x 79mm
Colours: Blush / Lavender / Pea Green / Sky Blue
Recommended Age: 3 months+

Product Description:

Say hello to the Haakaa Rosie Rocking Horse Silicone Teether, the cutest way to massage delicate mouths and entertain your baby during teething! Made from ultra-soft, 100% food-grade silicone, it gently massages gums with a variety of textures on the pony's head, tail, and body. The ergonomic design promotes fine motor skills, while the stabilising rocker feet allow babies to grip, rock, or stand it upright to provide teething exploration and play in one! With different ridges and massage points all over the pony's body, it helps effectively massage gums no matter the angle. The teether's rocker design allows it to hug baby's little hands or rest around their wrist for even more ways to play. Featuring a stabilising rocker and body pillar, babies can grip, rock, or stand the teether upright for fun and neat storage. This teether is easy to clean in dishwashers, sterilisers, and boiling water, making it easy to maintain hygiene while being perfect for sensory exploration and motor skill enhancement.

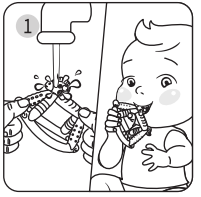

Features:

- Efficiently massages and entertains baby through every stage of teething.
- Made of soft 100% food-grade silicone to be safe for little mouths and gentle on gums.
- Adorable rocking horse shape in calming colours captures baby's attention and encourages engagement.
- A variety of textures and ridges on pony's head, tail, and body gently massage gums.

- Comfortably hugs little hands and wrists, giving baby more ways to to hold and explore the teether.
- Stabilising rocker feet & body pillar allow baby to grip and wobble the teether for playtime.
- Stands upright on rockers for hygienic use and storage.
- Versatile for adorable nursery decoration.
- Fridge & freezer safe for added cooling sensation.
- Compact & durable – safe in dishwashers, sterilisers and boiling water.
- BPA, PVC & phthalate-free.

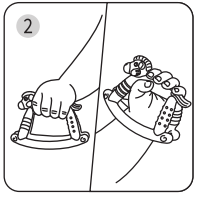

Cleaning and Care:

Wash before and after each use. Although dishwasher safe, we recommend hand washing this product in warm, soapy water then rinsing and drying thoroughly. Only soft bristle brushes or soft sponges should be used to clean this product as hard scourers may scratch the surface. To sterilise the teether, use a steam steriliser or boil in water for 2-3 minutes. Do not use UV sterilisers or bleach-based agents to clean this product. Ensure the product is thoroughly dried before storage. Store product in a cool, dry place and avoid direct sunlight.

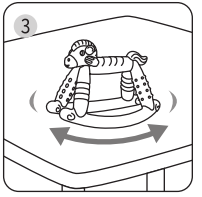

Instructions:

Clean before use. Give to baby to explore and chew on independently.

For different grip options, baby can grab the teether independently. Or try sliding the teether's rocker legs over your baby's wrist*. Take care to avoid baby's hand staying inside for extended periods of time.

Alternatively, use the feet to stand the teether upright for baby to rock and play, or for storage.

***NOTE:** Do not attempt this if the teether fits tightly around your baby's wrist. A snug or uncomfortable fit may restrict circulation or damage the toy.

Caution:

- Adult supervision is required at all times.
- Check product condition regularly. Replace if this product shows any signs of damage.
- Always inspect the teether before each use and ensure baby is awake during use.
- Keep out of reach of children and pets when not in use. NOT suitable for pets.
- For your child's safety, never attach this product to long cords, ribbons, laces or loose parts of clothing, as it can become wrapped around their neck.
- If used with a strap, ONLY use short straps that meet baby safety standards. Ensure the strap does not form loops as this may increase strangulation risks. Secure the strap to a safe location at all times.
- The hugging design of the teether should only be used with the help of a caregiver, and constant supervision is required. It should not be used on other parts of the body to avoid injury.
- Never allow your baby to put their hands through the hole for extended periods of time.
- Never attempt to force the teether over hands that are too big as this may restrict circulation.
- To avoid injury, do not let your baby hit their body during use with force.
- Do not store near any sharp objects.
- Do not use this product for anything other than its intended use.
- Do not forcefully stretch any parts at any time.
