5× Recording Cards - 40 × 25 × 0.5mm

Product Description:

The Haakaa Pineapple Silicone Nibble Tray is the perfect multi-functional addition to your little one's feeding journey. This soft, flexible and non-toxic 100% food-grade silicone tray is temperature-resistant, meaning you can use it as a separated snack plate, baking tray or freezer tray to create perfectly-sized portions of baby food or breast milk for your Fresh Food Feeder. It's also an absolute breeze to remove food from when you need it – no more stuck food after baking or freezing! It even comes with a label slot and five recording cards so it's easy to see at a glance what you've got stored and when you stored it, keeping things safe and reducing waste.

Features:

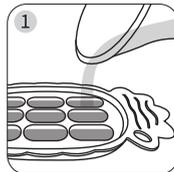

- Multi-functional: can be used as a freezer tray, baking mould, steamer, or even a snack plate.
- Creates perfectly-sized frozen portions for the Haakaa Fresh Food Feeder.
- Flexible body & smooth interior make removing food a breeze.
- Durable 100% food-grade silicone withstands extreme temperatures.
- Tray mould's easy-grab portions help develop fine motor skills and hand-eye coordination.
- Label slot for quick and easy identification of food and storage date.
- Vents on lid allow steam to escape during heating and prevent distortion while freezing.
- Loop at the top for hang-drying or convenient storing.
- Stackable design saves space in storage.
- Safe in fridge/freezers, dishwashers, microwaves, ovens (up to 250°C), sterilisers and boiling water.
- BPA, PVC and phthalate-free.

Cleaning and Care:

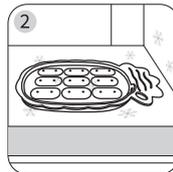

Before first use, disassemble and clean all parts (excluding labels) then place in boiling water for five minutes to sterilise. Wash before and after each use. Remove recording cards before washing, steaming, or baking. Although dishwasher safe, we recommend hand washing with warm, soapy water and rinsing thoroughly. Only soft bristle brushes or soft sponges should be used to clean this product, as hard scourers may scratch the surface. Do not use any bleach-based cleaners or tablets to sterilise or clean your Haakaa products. To sterilise, use a steam steriliser or boil in water for 2-3 minutes. Allow product to dry completely before storing. Store product in a cool, dry place and avoid direct sunlight.

Instructions:

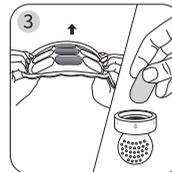

How to use with Fresh Food Feeder (sold separately)

Fill each compartment with breast milk, purées, or other favourites.

Cover with the lid then place in the freezer.

Once frozen, pop out a portion to put into your Fresh Food Feeder.

After assembling the Feeder, give it to your baby for some cooling relief!

Open Use

Fill compartments and bake as per recipe instructions. Always use a towel or oven mitts when removing tray from oven. Do not place lid on tray when baking, as food may rise. To remove food after baking, allow tray to cool then twist and press up on the bottom of each compartment to pop food out.

Caution:

For your child's safety and health WARNING!

- Always use this product with adult supervision.
- Before each use, inspect the product. Throw away at the first sign of damage or weakness.
- Always check food temperature before feeding.
- For your child's safety, never attach product to cords, ribbons, laces or loose parts of clothing, as it can become wrapped around their neck.
- Do not store near any sharp objects.
- Keep out of reach of children and pets when not in use.
- This product is not a toy. Do not use this product for anything other than its intended use.
- Do not put recording cards into sterilisers, microwaves, ovens or steamers.
- Take extra care when microwave heating; localised overheating can occur. Always mix the heated food and check the temperature before feeding.
- Take care when removing the lid after heating as steam may escape.

PLEASE NOTE: It is not recommended to keep infant food/breast milk frozen for longer than three months unless in a deep freeze. Do not re-freeze thawed food, breast milk or formula. Do not use any ingredients your child could potentially develop an allergy to (e.g. foods containing nut butters) before they have reached 12 months of age. Solid food is recommended for babies 4-6 months+. Please consult a medical professional if introducing solids earlier or for guidelines related to infants and food allergies.
